

COMMONWEALTH OF KENTUCKY
OFFICE OF THE GOVERNOR

Andy Beshear
GOVERNOR

Capitol Building, Suite 100
700 Capitol Avenue
Frankfort, KY 40601
(502) 564-2611
Fax: (502) 564-2517

MEMORANDUM

To: Members of the Kentucky General Assembly, County Judge/Executives, and Mayors

From: Governor Andy Beshear

Date: February 11, 2021

Subj: COVID-19 Vaccination Guidance and Current Locations

I am sure that you are being inundated with questions from constituents regarding the COVID-19 vaccine. I hope this memorandum can both provide you information and serve as a resource to help better inform constituents. We will be updating and re-circulating this memo weekly.

The biggest hurdle for Kentucky’s vaccine distribution program is supply. As you can see in the chart below, the number of vaccines administered in Kentucky has exceeded the federal supply of vaccine for every week since January 5th.

Unique Persons Vaccinated and Weekly Percent Vaccine Allocation Utilization (Tues-Mon)				
Week#	Week Beginning	New Persons Vaccinated	1st Dose Allocation	7 Day % Utilization
1	Dec 15	10,213	38,025	27%
2	Dec 22	26,962	104,000	26%
3	Dec 29	37,616	60,625	62%
4	Jan 5	63,871	53,700	119%
5	Jan 12	76,721	53,800	143%
6	Jan 19	82,578	56,175	147%
7	Jan 26	74,794	56,175	133%
8	Feb 2	79,777	64,975	123%

Source: <https://govstatus.egov.com/ky-covid-vaccine>

My administration is working hard to create an efficient and accessible vaccine distribution system. Our system is now capable of vaccinating well over 250,000 Kentuckians each week if the federal government could supply it. While we are fortunate that there is so much interest from Kentuckians in receiving the vaccine, this limited supply will require patience, and we need your continued leadership in urging everyone to continue to take all the necessary precautions recommended by public health experts, such as wearing masks and social

distancing. I have asked the federal government to double our current allocation – so far the federal government has increased our allotment by 28%. I am continuing to advocate for additional vaccine.

There are currently four vaccine distribution programs operating within the Commonwealth: one administered by the state and three administered by the federal government. The three federal programs are:

- Vaccines distributed to local pharmacies, which in Kentucky include Walgreens and independent pharmacies under the Good Neighbor brand (a list of those pharmacy locations is included as an attachment to this memorandum) – open to those who are eligible under Kentucky’s vaccine distribution plan (see chart below)
- Vaccines distributed to long-term care residents and staff (via Walgreens and CVS)
- Vaccines distributed to veterans and Veterans Affairs (“VA”) staff at VA hospitals and Department of Defense employees

For the state-run program, Kentucky’s Department for Public Health has outlined a 4-phase vaccine distribution plan, based on guidance from the federal Centers for Disease Control and Prevention:

Phase	Description
1A	Long term care facilities, assisted living facilities, health care personnel
1B	First responders, anyone age 70 or older, K-12 school personnel
1C	Anyone age 60 or older, anyone age 16 or older with CDC highest risk C19 risk conditions, all essential workers
2	Anyone age 40 or older.
3	Anyone age 16 or older.
4	Children under the age of 16 if the vaccine is approved for this age group (est. 18% of KY population)

Source: <https://govstatus.egov.com/ky-covid-vaccine>

As of today, the state-run program is in the middle of Phase 1B, with an emphasis on vaccinating those Kentuckians who are age 70 or older. Those also eligible in Phase 1A and 1B are still encouraged to get their vaccines, though I am pleased to report that Kentucky is among the first states to provide vaccines to all educators who wanted them. Since setting the state goal in December of administering 90% of all vaccines within 7 day of arrival, we have met or exceeded that goal each week of 2021.

The state-run program is distributing vaccines through regional vaccination sites, hospitals, and local health departments. Kentuckians who want to be sure to get the most updated information on vaccines and to get their name on the statewide list should sign up at <http://vaccine.ky.gov>. They can also view a map with updated information regarding regional vaccine sites at <https://govstatus.egov.com/kentucky-vaccine-map>.

For your reference, below is a list of state vaccine sites located in each of Kentucky's Area Development Districts, along with contact information for your constituents to sign up (note that this list does not include the local pharmacies participating in the federal program, which are instead included as an attachment to this memo):

- **Purchase Area Development District** (Ballard, Carlisle, Hickman, Fulton, McCracken, Graves, Marshall, and Calloway Counties)
 - Baptist Health Paducah – sign up at <https://www.baptisthealth.com/vaccine/schedule-now/>
